

QWETRUM TECHNOLOGIES

HR Department — Internship Program 2026

INTERNSHIP TRACK: DATA ANALYSIS

■ FINAL WEEK — CAPSTONE PROJECT ■

WEEK 4 — CAPSTONE TASKS

Duration: 1 Week

Submission Day: Saturday by 11:59 PM

Tasks This Week: 2 (Capstone + Wrap-up)

This is your **final week** of the internship. This capstone project brings together everything you have learned over the past 3 weeks. Give it your best effort — this is the project you will showcase in your portfolio and on LinkedIn.

TASK 01 — MAIN CAPSTONE — Capstone: Complete Business Analytics Project

Task 1 — Capstone: Complete Business Analytics Project

Combine SQL, statistical analysis, and dashboarding into one full end-to-end analytics project.

Requirements:

- Choose a new, more complex dataset (e.g., e-commerce, healthcare, or HR analytics from Kaggle)
- Use SQL to extract and aggregate key metrics from the raw data
- Perform statistical analysis: identify trends, run at least one hypothesis test
- Build a complete interactive dashboard in Power BI or Tableau answering at least 6 business questions
- Write a full analytics report: key findings, trends, anomalies, and data-driven recommendations
- Present the data story clearly — assume your audience is a non-technical manager

■ **Deliverable:** SQL file + dashboard export (PDF/screenshot) + full analytics report PDF, all zipped.

TASK 02 — WRAP-UP — Data Story Presentation

Task 2 — Data Story Presentation

Present your capstone analysis as a polished data story to stakeholders.

Requirements:

- Create a 6-8 slide presentation summarizing your key findings and recommendations
- Include your best 2-3 visualizations as slides
- Record a 4-5 minute video walking through your dashboard and key insights

- Write a 200-word reflection on your data analysis journey across the internship
- List 2 advanced data analysis skills (e.g., machine learning, forecasting) you'd like to learn next

■ **Deliverable:** Presentation file (PPTX/PDF) + video link + written reflection, zipped together.

■ Important Instructions for All Interns

- **No AI Tools Allowed:** Do NOT use ChatGPT, Claude, Copilot, Gemini, or any AI assistant. This capstone is your chance to prove what YOU have learned. Do it yourself.
- **Task Submission:** Create a ZIP file of your completed task. Upload it to your personal Google Drive folder (link shared by HR). Submit by **Saturday 11:59 PM**.
- **LinkedIn Progress Update:** Post your final project on LinkedIn. Share your full 4-week journey and tag **Qwetrum Technologies**. This is mandatory and a great addition to your profile.
- **Final Impression Matters:** This capstone reflects your overall internship performance. Take the time to polish, test, and present it well.
